**Full Sail University | Information Technology Certificate (Orlando, FL)**

Aug 2026 – Mar 2027 (Expected)

**Relevant Coursework:** Operating Systems, Networking Technologies, Virtual Computing, Information Security

## WORK EXPERIENCE

**custta. | Founder & iOS Developer**

Jul 2026 – Present

- Built an iOS app (Swift/SwiftUI) that also runs as an offline-first PWA, helping builders track costs and real profit for each construction project.
- Preparing App Store release, with automated builds and testing through GitHub Actions and TestFlight.
- Developed a multi-user cloud backend with Firebase, including secure accounts and real-time sync.
- Lead the full product launch: branding, social media marketing, and App Store preparation.

**AgroMauá | Student Developer Entity, Instituto Mauá de Tecnologia**

Jan 2026 – Jun 2026

*Software Developer*

- Developed software solutions in a multidisciplinary student team focused on agribusiness technology.
- Applied agile methodologies (Scrum/Kanban) and version control with Git in collaborative projects.
- Built web interfaces using HTML, CSS, and JavaScript; implemented backend logic in Java.

## PROJECTS

**PoliGen-AI | Dart, TypeScript, AI Image Generation**

Jul 2025 – Dec 2025

- Built a cross-platform application (web + mobile) that generates AI-powered educational images in partnership with Poliedro, a major Brazilian education group.
- Developed the mobile app in Dart (Flutter) and the backend API in TypeScript, integrating AI image generation models to support student learning.
- Designed and implemented the full-stack architecture, from multiplatform frontend to API, handling image generation pipelines end-to-end.

**Nutri Esportiva | Product Owner | React, Vite, Prisma, SQLite, JWT**

Jan 2026 – Jun 2026

- Led product direction as Product Owner for a sports session monitoring app, defining features and priorities.
- Prototyped the interface in Figma and guided development of a React + Vite web app with a Prisma/SQLite database and JWT authentication.
